Terryberry is looking for a detailed and technology loving individual to join our 360 Recognition Team. The Quality Analyst will test software to ensure it meets design specifications and product quality standards. General work schedule is Monday – Friday 8:00 am to 5:00 pm, however, hours will vary during software launch.

ABOUT US

Our Mission: When people are recognized for their efforts, they are inspired to achieve more. The mission of Terryberry is to help organizations provide their people with special recognition for remarkable contributions and achievements. We strive to create a fulfilling and rewarding environment where people achieve their best potential.

Locations: We're headquartered in Grand Rapids, MI, with locations throughout North America and Europe.

Past & Present: Founded by H.R. Terryberry in 1918 as a jewelry and award manufacturer in Grand Rapids, MI. The company is still family-owned, now in its 4th generation.

RESPONSIBILITIES:

- Partner with developers and manager to determine automation related validation plan activities for software products to ensure proper operation and freedom from defects.
- Work closely with other QA Analysts to establish project deliverables and timelines around automated test development and execution for projects.
- Design, build, execute, and debug automated tests.
- Tracking and reporting manual and automated testing effort progress and issue resolution status.
- Tracks defects from detection to resolution and works with developers to reproduce and resolve defects.
- Devises improvements to current testing procedures.
- Acquires and maintains knowledge of existing products, and systems.
- Works closely with manager to establish project deliverables and timelines.

PREFERRED QUALIFICATIONS:

- High initiative to recognize opportunities and coordinate resolution of issues.
- Familiarity with Telerik Test Studio and JIRA a plus.
- Ability to embrace details and formulates the 'big picture.'
- Willingness to learn new software and skills to expand QA knowledge.
- Strong organizational and communication (written and verbal), problem solving and decision making skills.
- Must be thorough and attentive to detail.
