Onboarding Detailed Overview

Standard Onboarding and Implementation of your platform will take 8-10 weeks. To budget for any delays, we allot 11 weeks (53 business days) of access to your Implementation Specialist by the end of which your platform will be live. Our estimated timelines are based on over 1,000 launched clients, however, your Implementation Specialist is committed to moving as fast as your team is capable.

Each step in the process will include an estimated outlay of time for the client (time spent by client stakeholders to complete tasks) and Terryberry (time spent by Terryberry only). Our estimate for the total allotment of time by Terryberry to complete implementation is 30-45 production hours.
